Main products:

Aluminum battery box, metal body overall exterior parts, decorative strips, injection molded parts, etc

1、浙江佳乐科仪股份有限公司

中文：

浙江佳乐科仪股份有限公司是嘉兴市汽车零部件工业协会会长单位，成立于 2002 年，坐落于美丽的滨海城市——浙江省嘉兴市海盐县，简称“佳乐股份”，是国家级高新技术企业，佳乐股份是我国汽车驱动器的知名企业。

公司主要从事工业控制系统、环保装备、新能源领域的研发、生产、销售，具有领先的研发能力，拥有近四百余项发明、实用新型、外观专利和软件著作权。主要产品覆盖了服务于工业控制、环保、新能源等领域，并专注于军工、核军工、核电变频驱动控制系统的研发、生产。公司自主研发的新能源智能环保车目前已批量化生产，这将有效促进嘉兴新能源车用零部件的蓬勃发展。

主营产品：

变频器; VF 变频器; 矢量变频器; 通用变频器

英文：

. Zhejiang Jiale Science Instrument Co., Ltd

Established in 2002 and located in Haiyan County, Jiaxing, a beautiful coastal city, Jiaxing, Zhejiang Jiale Scientific Instrument Co., Ltd. is a national high-tech enterprise.

The company is mainly engaged in the R&D, production and sales of Industrial control system, environmental protection equipment and new energy fields. It has a

leading R&D capability and has nearly 400 inventions, utility models, appearance patents and software copyrights. The main products cover industries such as industrial control, environmental protection, and new energy, and focus on the research and production of variable frequency drive control systems in military, nuclear, and nuclear industries. The company's self-developed new energy intelligent environment-friendly vehicles have been mass produced, which will effectively promote the vigorous development of parts for Alternative fuel vehicle in Jiaxing.

Main products:

Frequency converter; VF frequency converter; Vector frequency converter;
Universal frequency converter

2、嘉兴奕霞汽配科技有限公司

中文:

嘉兴奕霞汽配科技有限公司成立于 2016 年, 公司坐落在浙江省嘉兴市,是一家专业从事汽车硅胶雨刮器的研发生产销售为一体的高新技术企业,近年来公司先后突破国外技术封锁,攻克了硅胶生产制备技术, 掌握了硅胶雨刮器挤出成型加工工艺, 发明了高分子材料配方, 抛弃了用表面涂层处理来达到润滑和镀膜效果, 打破了传统工艺,取得了 11 多项发明专利技术.先后在部队的特种车辆和多个汽车品牌雨刮器的使用, 得到了一致的肯定,中国循环经济协会组织的专家组得出的结论: “奕霞” 牌硅胶雨刮器系列产品用硅胶可循环利用, 经济、

社会和环境效益明显，该成果具有创新性和实用性，整体技术达到国内领先水平。

主营产品：

汽车硅胶雨刮器

英文：

Jiaxing Yixia Automotive Parts Technology Co., Ltd

Jiaxing Yixia Auto Parts Technology Co., Ltd., founded in 2016 and located in Jiaxing City, Zhejiang Province, is a high-tech enterprise specializing in the R&D, production and sales of silicone windscreen wipers for automobiles. In recent years, the company has broken through the foreign technology blockade, conquered the production and preparation technology of silicone, mastered the extrusion molding process of silicone windscreen wipers, and invented the formula of polymer materials, Abandoned the use of surface coating treatment to achieve lubrication and coating effects, broke traditional processes, and obtained over 11 invention patents. The use of wipers in special vehicles and multiple automobile brands in the military has been unanimously recognized. The expert group organized by the China Circular Economy Association has concluded that the "Yixia" brand silicone wiper series products can be recycled using silicone, with obvious economic, social, and environmental benefits. This achievement is innovative and practical, and the overall technology has reached the leading level in China.

Main products:

Automotive silicone wipers

3、嘉兴嘉嘉汽车零部件制造有限公司

中文：

嘉兴嘉嘉汽车零部件制造有限公司作为协会常务副会长单位,专业生产商用车及乘用车减振器,是我国有相当影响力的汽车减震器生产企业。公司成立于 1995 年,占地面积 10,000 平米,其中厂房建筑面积 6,500 平米,已有 20 年汽车用减振器的开发、生产经验。公司现有员工 60 余名,产值以每年 10%左右的速度在高速发展。

企业业务:全系商用车减振器,涵盖轻、中、重卡及客车底盘减振器,以及重卡驾驶室减振器,具备年产 50 万支商用车减振器的生产能力,ZF SACHS 售后产品指定供应商,具备 20 万支乘用车减振器的生产能力,订制、改装减振器,以出口市场为主柔性生产方式,以满足小批量、多品种的需求。

主要客户:东风汽车、江淮汽车、陕汽重卡、南京依维柯、东风柳汽、金龙客车、金旅客车、安凯客车等等。

主营产品：

减震器

英文：

Jiaxing Jiajia Automotive Parts Manufacturing Co., Ltd

Jiaying Jiajia Automotive Parts Manufacturing Co., Ltd., as the executive vice president unit of the association, specializes in producing shock absorbers for commercial and passenger vehicles. It is a highly influential automotive shock absorber production enterprise in China. The company was established in 1995, covering an area of 10000 square meters, including a factory building area of 6500 square meters. It has 20 years of experience in the development and production of automotive shock absorbers. The company currently has over 60 employees and its output value is developing rapidly at a rate of about 10% per year.

Enterprise Business: A full range of commercial vehicle shock absorbers, covering light, medium, heavy truck and passenger car chassis shock absorbers, as well as heavy truck cab shock absorbers. With an annual production capacity of 500000 commercial vehicle shock absorbers, ZF SACHS is a designated supplier of after-sales products, with a production capacity of 200000 passenger car shock absorbers. The shock absorbers are customized and modified, with a flexible production method mainly based on the export market to meet the needs of small batches and multiple varieties.

Main customers: Dongfeng Automobile, JAC Motors, Shaanxi Automobile Heavy Duty Truck, Nanjing Iveco, Dongfeng Liuqi, Jinlong Bus, Jinlv Bus, Ankai Bus, etc.

Main products:

Shock absorber

4、浙江英汇汽车部件有限公司

中文：

浙江英汇汽车部件有限公司成立于 2016 年 11 月 09 日，位于平湖市独山港镇海振路 222 号内第 2 幢。公司主要从事金属结构件、汽车装饰件、汽车底盘类零件及轨道交通零部件的加工制造，是一家专业的汽车零部件和轨道交通零部件制造企业。公司主要客户包括：上海大众、一汽大众、长城汽车、上海汽车、吉利汽车、长安福特、长安马自达、通用汽车、西班牙美莱克等知名企业。在产品开发方面，公司拥有专业的产品设计研发部和专业的模具制造部门，在金属件成型加工、注塑成型、热处理、表面处理等方面拥有高素质的专业人才，能够迅速满足不同客户新产品的开发要求，为客户提供相应的技术服务。在生产能力方面，公司拥有冲压、焊接、折弯、热处理、机械加工、电化学蚀刻、阳极氧化、注塑、滚压、纯压、喷漆、喷粉、装配等多种生产加工设备，具有强大的批量生产能力。在保证质量方面，公司以“追求卓越，求实创新，控制过程，改进效率，服务客户，奉献社会”为质量方针，以“实现零缺陷”为质量目标，一贯秉承高品质理念，建立和完善高标准的质量保证体系。

主营产品：

汽车装饰件、功能件、底盘件、动力总成件和电子件，汽车迎宾踏板、汽车侧护踏板、行李架

英文：

Zhejiang Yinghui Automotive Parts Co., Ltd

Zhejiang Yinghui Auto Parts Co., Ltd., founded on November 9, 2016, is located in Building 2, No. 222, Haizhen Road, Dushangang Town, Pinghu City. The company is mainly engaged in the processing and manufacturing of metal structural parts, automotive decorative parts, automotive chassis parts, and rail transit parts. It is a professional manufacturer of automotive and rail transit parts. The company's main customers include: Shanghai Volkswagen, FAW Volkswagen, Great Wall Motor, SAIC Motor, Geely Auto, Chang'an Ford, Changan Mazda, General Motors, Spanish Merrick and other well-known enterprises. In terms of product development, the company has a professional product design and research and development department and a professional mold manufacturing department. It has high-quality professional talents in metal forming processing, injection molding, heat treatment, surface treatment, etc., which can quickly meet the development requirements of different customers' new products and provide corresponding technical services to customers. In terms of production capacity, the company has various production and processing equipment such as stamping, welding, bending, heat treatment, mechanical processing, electrochemical etching, anodizing, injection molding, rolling, pure pressing, painting, powder spraying, assembly, etc., and has strong batch production capacity. In terms of quality assurance, the

company adheres to the quality policy of "pursuing excellence, seeking truth and innovation, controlling processes, improving efficiency, serving customers, and dedicating to society", and the quality goal of "achieving zero defects". We always adhere to the concept of high quality and establish and improve a high standard quality assurance system.

Main products:

Car trim parts, functional parts, chassis parts, Powertrain parts and electronic parts, car welcome pedal, car side guard pedal, luggage rack

5、浙江欧迪恩传动科技股份有限公司

中文：

浙江欧迪恩传动科技股份有限公司是一家集研发、设计、制造于一体的汽车球笼式等速万向节及驱动轴中外合资制造企业。其前身为具有三十多年专业制造经验的台州宏利汽车零部件有限公司。早在 1987 年，公司便开始生产球笼式等速万向节及驱动轴；2005 年，公司投资 2000 万美元，建立了具有国际先进水平的平湖生产基地。公司占地面积 14 万平米，现有员工 1000 余人。通过不断融合国内制造优势和国际化管理模式，欧迪恩公司现已成长为中国及全球汽车前轮驱动轴行业中极具竞争力的企业。同时，欧迪恩也是多家全球汽车售后知名品牌的主要供应商。“ODM”品牌已在国内、欧美、东南亚、中东、非洲等市场得到了普遍的认可，产品资料已进入全球知名的 TecDoc 平台。

欧迪恩创业多年来，一直致力于提高企业的核心竞争力。在发展中以“把欧迪恩的制造优势带给全球的汽车消费者！”作为公司使命。相信不断进取、善于创新的欧迪恩人，一定会把企业打造成“全球最具竞争力的球笼式等速万向节及驱动轴制造企业”。

主营产品：

等速驱动轴总成

英文：

Zhejiang Odian Transmission Technology Co., Ltd

Zhejiang Odian Transmission Technology Co., Ltd. is a Sino foreign joint venture manufacturing enterprise that integrates research and development, design, and manufacturing of automotive ball cage constant velocity universal joints and drive shafts. Its predecessor was Taizhou Hongli Automotive Parts Co., Ltd., which had over thirty years of professional manufacturing experience. As early as 1987, the company began producing ball cage type constant velocity universal joints and drive shafts; In 2005, the company invested 20 million US dollars to establish an internationally advanced Pinghu production base. The company covers an area of 140000 square meters and currently employs more than 1000 people. Through continuous integration of domestic manufacturing advantages and international management mode, the company has grown into a highly competitive enterprise in China and the global automotive Front-wheel drive shaft industry. At the same time,

The "ODM" brand has gained widespread recognition in markets such as China, Europe, America, Southeast Asia, the Middle East, and Africa, and product information has entered the globally renowned TecDoc platform.

Over the years, Odian has been committed to improving the core competitiveness of the company. Our mission in development is to bring Odian's manufacturing advantages to global automotive consumers. I believe that the constantly enterprising and innovative Odian people will surely build the company into the "world's most competitive ball cage constant velocity universal joint and drive shaft manufacturing enterprise".

Main products:

Constant speed drive shaft assembly

6、海盐华昇汽配科技股份有限公司

中文：

海盐华昇汽配科技股份有限公司是原海盐县西塘桥华升液压工具厂，成立于 1998 年，位于浙江省海盐县西塘桥，公司目前厂房面积 15000 平方米，仓储包装面积 2000 平方米。作为协会的常务副会长单位，是一家我国知名的汽车紧固件高品质螺母专业生产制造商，集研发、生产、销售、服务于一体的国家高新技术企业。2007 年公司投入汽车紧固件生产线，

主要生产 4-10 级螺母各种非标汽车异型紧固件。包括 Q328 尼龙锁紧螺母、Q338 六角法兰面尼龙锁紧螺母、Q320 六角法兰面螺母、全金属六角锁紧螺母、轮胎螺母等等，产品性能稳定、优势明显。公司用于高速多工位冷镦机、攻牙机、压圈机等高端设备 100 多台套，日产量紧固件超 20 吨，产品广泛用于汽车、交通等行业，用户主要是福特汽车、上海大众、吉利等多家国内知名汽车整车厂。

主营产品：

汽车紧固件的各类汽标螺母

英文：

Haiyan Huasheng Automotive Parts Technology Co., Ltd

Haiyan Huasheng Auto Parts Technology Co., Ltd. is a former Haiyan County Xitangqiao Huasheng Hydraulic Tool Factory, established in 1998. It is located in Xitangqiao, Haiyan County, Zhejiang Province. The company currently has a factory area of 15000 square meters and a storage and packaging area of 2000 square meters. As the executive vice president unit of the association, it is a well-known professional manufacturer of high-quality automotive fasteners and nuts in China. It is a national high-tech enterprise that integrates research and development, production, sales, and service. In 2007, the company put into operation a production line for automotive fasteners, mainly producing various non-standard automotive shaped fasteners with grade 4-10 nuts. Including Q328 nylon lock nuts, Q338 hexagonal normal nylon lock nuts, Q320 hexagonal flange nuts, all metal

hexagonal lock nuts, tire nuts, etc., the product has stable performance and obvious advantages. The company is used for over 100 sets of high-end equipment such as high-speed multi-station cold heading machines, tapping machines, and ring pressing machines, with a daily production capacity of over 20 tons of fasteners. The products are widely used in industries such as automobiles and transportation, and the users are mainly well-known domestic automobile manufacturers such as Ford Motor, Shanghai Volkswagen, and Geely.

Main products:

Various types of automotive fasteners with standard nuts

7、浙江荣亿精密机械股份有限公司

中文：

浙江荣亿精密机械股份有限公司成立于 2002 年，有 18 年的车削经验。公司在浙江、重庆设立工厂，在昆山设有贸易公司。公司自成立以来一直专注于精密金属零部件、紧固件的研发、制造和销售，主要为 3C、汽车等下游应用行业的客户提供精密金属零部件产品，未来将继续扩展至航空、医疗等领域。公司拥有多台先进设备，走刀式自动车床、CNC 精密车床、数控车床、进口多工位冷墩设备、冲压设备、自动攻牙机、自动铣边机、切边机、全自动摄像检测机，每月产能可达 4 亿 PCS。公司产品涉及 BOSCH 汽车雨刷喷嘴、PCB 板 SMD 贴片螺母、车灯 TURN BOX、天线模组、电机螺母、电瓶端子、传感器 BUSHING 等，服

务客户特斯拉、蔚来、理想、宝马等各车型，新设厂以特殊精密机加及冲压组装等多断面增长产品线。公司配备多台 CCD 光学检验设备，三坐标测量仪、清洁度检测设备、有害物质检测设备（AAS、XRF、EDX），镀层膜厚检测的设备 EDXRF(Thick800A)、磁感应测厚仪、（HV、HRC）硬度测试机、微机控制电子万能试验机、电子式扭转试验机、高温高湿性能指标检测、中性及酸性盐雾实验设备等，从而保证物料、产品的品质符合规定要求。

主营产品：

各类车削件铆钉、SMD 贴片螺母、塑胶件埋置铜螺母、异型机加工件、各类电子冲压件、汽车冲压件产品、塑胶类产品、传感器零部件、薄型电池集合电极片、汽车用软硬连接铜排。

英文：

Zhejiang Rongyi Precision Machinery Co., Ltd

Zhejiang Rongyi Precision Machinery Co., Ltd. was established in 2002 and has 18 years of experience in turning. The company has established factories in Zhejiang and Chongqing, and a trading company in Kunshan. Since its establishment, the company has been focusing on the research and development, manufacturing, and sales of precision metal components and fasteners, mainly providing precision metal component products to customers in downstream application industries such as 3C and automobiles. In the future, it will continue to expand into aviation, medical and other fields. The company has multiple advanced equipment, including a walking automatic lathe, CNC precision lathe, CNC lathe, imported multi-station cold heading equipment, stamping equipment, automatic tapping

machine, automatic milling machine, edge cutting machine, and fully automatic camera detection machine, with a monthly production capacity of up to 400 million PCS. The company's products involve BOSCH automotive wiper nozzles, PCB SMD mounting nuts, car lamp TURN BOX, antenna modules, motor nuts, battery terminals, sensor BUSHING, etc., serving customers of various models such as Tesla, NIO, Ideal, BMW, etc. The new factory has expanded its product line through special precision machining and stamping assembly. The company is equipped with multiple CCD optical inspection equipment, three coordinate measuring instruments, cleanliness detection equipment, harmful substance detection equipment (AAS, XRF, EDX), coating film thickness detection equipment EDXRF (Thick800A), magnetic induction thickness gauge, (HV, HRC) hardness testing machine, microcomputer controlled electronic universal testing machine, electronic torsion testing machine, high-temperature and high humidity performance index detection, neutral and acidic salt spray experimental equipment, etc., to ensure the quality of materials. The quality of the product meets the specified requirements.

Main products:

Various types of turned rivets, SMD chip nuts, plastic embedded copper nuts, special-shaped machining parts, various electronic stamping parts, automotive stamping parts products, plastic products, sensor components, thin battery collector plates, and soft and hard connection copper bars for automobiles.

8、浙江群展精密紧固件股份有限公司

中文：

浙江群展精密紧固件股份有限公司成立于 2011 年，占地面积 54000m²，主要产品：六角法兰螺栓、内梅花、外梅花螺栓、轮毂螺栓螺母、焊接螺栓、双头螺栓、非标螺栓螺母。目标设定高端紧固件、精密部件的研发、制造和销售。特别针对汽车业、工程机械、高强度非标螺栓的专业生产。

主营产品：

高端紧固件，汽车高强度非标螺栓，金属表面处理等

英文：

Zhejiang Qunzhan Precision Fasteners Co., Ltd

Zhejiang Qunzhan Precision Fasteners Co., Ltd. was established in 2011, covering an area of 54000m², Main products: hexagonal flange bolts, internal and external torx bolts, wheel hub bolts and nuts, welding bolts, double head bolts, non-standard bolts and nuts. The goal is to develop, manufacture, and sell high-end fasteners and precision components. Specially designed for the professional production of high-strength non-standard bolts in the automotive industry, engineering machinery, and other industries.

Main products:

High end fasteners, high-strength non-standard bolts for automobiles, metal surface treatment, etc

9、浙江金彩新材料有限公司

中文：

浙江金彩新材料有限公司 2009 年注册成立，是一家专业从事色母粒、改性塑料和功能母粒的研发、生产和销售为一体的企业。公司占地 63 亩，8 栋厂房 45000m²，拥有四十条先进生产线。主要生产高品质涤纶色母、丙纶色母、锦纶色母、塑料色母、改性塑料、生物降解母粒、功能母粒、专用母粒、无纺布母粒等等。并一直致力于高、精、尖、新、特改性塑料及母粒的研发和生产，与国防科技研究单位及高等院校共同研制开发国内先进功能性母粒等等。本公司广泛评选国内外高级着色剂，选用先进的设备和严格的实验室检测方法，使产品具有色谱齐全、色组科学、可纺性好、色牢度高、功能性强等优点。并通过配套纺丝打样机、注塑机、电脑测色仪、DF 值检测仪等一系列开发检测设备，对来样配色、生产、营销和服务均按照

主营产品：

改性塑料：PP 系列、PC 系列、PC/ABS 等合金系列、ABS 系列、PA6/66 系列，应用于汽车内外饰、家电、电子电器、电动工具等领域。

色母系列：涤纶色母、锦纶色母、丙纶色母、塑料色母等

功能母粒：导电母粒、可降解母粒等

英文：

Zhejiang Jincai New Materials Co., Ltd

Zhejiang Jincai New Materials Co., Ltd. was registered and established in 2009. It is a professional enterprise engaged in the research and development, production, and sales of color masterbatches, modified plastics, and functional masterbatches. The company covers an area of 63 acres, with 8 factory buildings of 45000 meters ², We have 40 advanced production lines. We mainly produce high-quality polyester masterbatch, polypropylene masterbatch, nylon masterbatch, plastic masterbatch, modified plastics, biodegradable masterbatch, functional masterbatch, specialized masterbatch, non-woven fabric masterbatch, and so on. And has been committed to the research and production of high, precision, cutting-edge, new, and specially modified plastics and masterbatches, and has collaborated with national defense technology research units and universities to develop advanced functional masterbatches in China. Our company extensively selects advanced colorants both domestically and internationally, using advanced equipment and strict laboratory testing methods to ensure that our products have advantages such as complete chromatography, scientific color groups, good spinnability, high color fastness, and strong functionality. And through a series of development and testing equipment such as supporting spinning and sampling machines, injection molding machines, computer color testers, DF value detectors, etc., the color matching, production, marketing, and service of the incoming samples are all in accordance with

Main products:

Modified plastics: PP series, PC series, PC/ABS alloy series, ABS series, PA6/66 series, used in automotive interior and exterior decoration, household appliances, electronic appliances, electric tools and other fields.

Color masterbatch series: polyester color masterbatch, nylon color masterbatch, polypropylene color masterbatch, plastic color masterbatch, etc

Functional masterbatch: conductive masterbatch, degradable masterbatch, etc

10、采埃孚传动技术（嘉兴）有限公司

中文：

采埃孚传动技术(嘉兴)有限公司于 2020 年成立，位于丝绸之府、国家历史文化名城嘉兴，公司主要经营一般项目：技术服务、技术开发、技术咨询、技术交流、技术转让、技术推广；汽车零部件及配件制造；汽车零部件研发；汽车零配件批发；汽车零配件零售；机械零件、零部件销售；采购代理服务；信息咨询服务；社会经济咨询服务；财务咨询。许可项目：货物进出口；人力资源服务。在公司发展壮大的 3 年里，我们始终为客户提供好的产品和技术支持、健全的售后服务。

主营产品：

自动驾驶、驾驶辅助系统、制动与稳定系统、转向系统、传动系统、悬架技术、挂车技术、

电驱动解决方案以及车队数字化解决方案

英文:

ZF Friedrichshafen Transmission Technology (Jiaxing) Co., Ltd

ZF Friedrichshafen Transmission Technology (Jiaxing) Co., Ltd., established in 2020, is located in Jiaxing, the capital of silk and the List of National Famous Historical and Cultural Cities in China. The company mainly engages in general projects: technical services, technical development, technical consultation, technical exchange, technology transfer, and technology promotion; Manufacturing of automotive parts and accessories; Research and development of automotive components; Wholesale of automotive parts; Retail of automotive parts; Sales of Machine element and spare parts; Procurement agency services; Information consulting services; Socio economic consulting services; Financial consulting. Licensed project: import and export of goods; Human resources services. In the three years of our company's development and growth, we have always provided customers with good products and technical support, as well as sound after-sales service.

Main products:

Autonomous driving, driving assistance systems, braking and stability systems,

steering systems, transmission systems, suspension technology, trailer technology, electric drive solutions, and fleet digital solutions

11、浙江科博达工业有限公司

中文：

科博达是高新技术企业和开发区重点骨干企业，专业从事汽车零部件产品的研发、制造与销售，生产的产品系列涉足汽车电器与发动机部件的领域，现有产品基本为国内外主机厂定点配套。公司总部设在上海张江，目前在上海、北京、温州、无锡、重庆等地设有研发中心、制造基地和销售网络，并在全国相关地区都设有办事机构。公司产品涵盖汽车照明控制系统、电机控制与机电一体化产品、新能源产品、车载电子与电器产品等多个领域。重视科技投入与技术团队的建设，自主开发的产品批量配套于德国大众、奥迪、保时捷、奔驰、福特、康明斯等十余家国际著名高端客户，公司的 LED 光源控制技术和电机驱动技术处于全球业内一流水平，是目前国内行业中成功参与国际著名汽车品牌同步开发和制造的中国本土供应商。

主营产品：

汽车照明控制系统、电机控制与机电一体化产品、新能源产品、车载电子与电器产品等多个领域， LED 光源控制技术和电机驱动技术，汽车智能、节能部件

英文：

Zhejiang Keboda Industrial Co., Ltd

Keboda is a high-tech enterprise and a key backbone enterprise in the

development zone, specializing in the research and development, manufacturing, and sales of automotive component products. The product series it produces involves the field of automotive electrical and engine components, and its existing products are basically designated as supporting facilities for domestic and foreign OEMs. The company is headquartered in Zhangjiang, Shanghai, and currently has research and development centers, manufacturing bases, and sales networks in Shanghai, Beijing, Wenzhou, Wuxi, Chongqing, and other places. It also has offices in relevant regions across the country. The company's products cover multiple fields, including automotive lighting control systems, motor control and mechatronics integration products, new energy products, and automotive electronics and electrical products. We attach great importance to scientific and technological investment and the construction of technical teams. Our self-developed products are batch supported by more than ten international famous high-end customers, such as Volkswagen, Audi, Porsche, Mercedes Benz, Ford, Cummins, etc. The company's LED light source control technology and motor drive technology are at the top level of the global industry. At present, the company is a Chinese local supplier successfully participating in the synchronous development and manufacturing of international famous automobile brands in the domestic industry.

Main products:

Multiple fields such as automotive lighting control systems, motor control and mechatronics integrated products, new energy products, in vehicle electronics and electrical products, LED light source control technology and motor drive technology, automotive intelligent and energy-saving components

12、嘉兴市双跃钢圈制造有限公司

中文：

嘉兴市双跃钢圈制造有限公司成立于 2004 年,坐落于嘉兴市凤桥镇,毗邻上海, 杭州, 苏州, 宁波。乍嘉苏高速及沪杭高速穿城而过, 交通十分便利, 地理位置优越。公司是生产汽车、拖拉机、工程机械钢圈的专业生产厂家, 产品品种多, 质量好, 深受用户欢迎! 嘉兴市双跃钢圈制造有限公司依靠雄厚的专业技术, 多年的钢圈制造经验, 为满足客户对产品的严格设计要求, 公司领先市场自行研发制造闪光对焊机、刮渣机、重型冷滚机等钢圈制造专用设备, 性能超群, 运行稳定, 效率高。公司拥有一流的生产设备, 专业的技工队伍, 良好的质量意识, 为生产优质的产品提供了强有力的保证。并在 2005 年通过 ISO9001 国际质量体系认证。于 2020 年获得省高新技术企业, 市科技型企业等。产品销往全国各地, 并出口美国、欧洲及东南亚等国家。

主营产品：

车轮; 焊接变压器; 焊机; 减速机; 钢圈成形设备;

英文：

Jiaxing Shuangyue Steel Ring Manufacturing Co., Ltd

Jiaxing Shuangyue Steel Ring Manufacturing Co., Ltd. was established in 2004, located in Fengqiao Town, Jiaxing City, adjacent to Shanghai, Hangzhou, Suzhou and Ningbo. The Zhajiasu Expressway and the Shanghai Hangzhou Expressway pass through the city, providing convenient transportation and superior geographical location. The company is a professional manufacturer of steel rims for automobiles, tractors, and construction machinery, with a wide variety of products and good quality, which are deeply welcomed by users! Jiaxing Shuangyue Steel Ring Manufacturing Co., Ltd. relies on strong professional technology and years of experience in steel ring manufacturing. In order to meet customers' strict design requirements for products, the company leads the market in developing and manufacturing professional steel ring manufacturing equipment such as flash butt welding machine, slag scraper, heavy cold roller, etc., with superior performance, stable operation and high efficiency. The company has first-class production equipment, a professional team of technicians, and a good quality awareness, providing a strong guarantee for the production of high-quality products. And passed the ISO9001 international quality system certification in 2005. Obtained the title of Provincial High tech Enterprise and Municipal Science and Technology Enterprise in 2020. The products are sold throughout the country and exported to countries such as the United States, Europe, and Southeast Asia.

Main products:

Wheel; Welding transformer; Welding machine; Reducer; Steel ring forming equipment;

The current annual production volume of the company reaches 25 million pieces, which is a guarantee for the company to win in the same industry. The company has a wide range of products, including hard pipe joints, hose joints, hydraulic hose assemblies, oil plugs, nuts and other industry products. They are widely used in industries such as automotive manufacturing, engineering machinery, shipbuilding, wind power generation, rail transit, national defense and military industry, and have in-depth cooperation with multiple well-known domestic and foreign host factories. The products are exported to more than 20 countries and regions at home and abroad. The company has excellent production equipment, advanced technology, strict management, and complete testing equipment. The company has 160 sets of robot production lines, over 400 precision CNC machine tools, CNC drilling and milling machines, and 10 medium frequency electric precision forging production lines. The straight pipe fittings produced by the company adopt cold drawing process; The irregular pipe

fittings adopt the medium frequency electric heating die forging process; Nuts adopt cold extrusion technology; The ferrule adopts cold extrusion, machining, and ultra-thin layer gas carburization technology, which has won the third prize of national invention.

Company Honor: Jiaying Meisi Te is one of the formulation units of the "GB Pipe Joint National Standard". The wind power project has been selected for the national level Spark Plan, rated as a provincial-level high-tech enterprise, a provincial-level tax credit AAA enterprise, and a provincial-level technology-based small and medium-sized enterprise. It has one provincial-level research and development center, more than 30 provincial-level new products, and has applied for national patents and authorized more than 50, including 8 authorized invention patents, Participated in the formulation and revision of 55 national and industry standards. Technological innovation is the foundation of the company, with a core technical team of 37 people, including 4 senior engineers, 1 innovation and entrepreneurship leader, 1 Nanhu Baijie, 1 senior technician, and 20 engineers. The company attaches great importance to technology development and has established a school enterprise cooperation research and development center with North University of China.

Main products:

The straight pipe fittings adopt cold drawing process; The anisotropic pipe fittings adopt the medium frequency electric heating die forging process; Nuts use cold extrusion process

浙江欣兴工具股份有限公司始建于 1992 年，坐落于美丽的南北湖畔，占地面积 10 万多平方米，是一家专注于研发、制造高性能切削刀具的高新技术企业。“CHTOOLS®创恒®”为公司主打品牌，现有员工 500 余名。三十年的发展，公司装备了现代化的刀具生产线，拥有国际知名的数控机床、全自动 CNC 机床、热处理设备等，形成可靠、先进的生产能力，从原材料检测、下料、粗加工、热处理、精加工到成品检验和测试，所有生产工序均在公司内部完成。我们的主营产品有：“可换刀尖式钻头—《铲钻》、《S 钻》、丝锥、整体硬质合金、铰钻、高效节能的钢板钻系列、BTA 深孔钻、钢轨钻以及自主研发的钢板钻配套设备磁座钻机系列等。我们年轻而有活力，依托技术创新，坚持用户价值，持续研发新产品。未来，我们将致力于成为行业领先的百年刀具企业而奋斗。

公司先后拥有核心自主知识产权专利 170 余项，其中中国发明专利 16 项，美国发明专利 1 项，欧洲发明专利 1 项。公司实行严格的质量管理制度，先后通过了 ISO9001 质量体系认证、ISO14001 环境体系认证，获得了国家制造业单项冠军示范企业，浙江省隐形冠军企业，起草了《钢板钻》、《铲钻》中国行业标准，吸引了诸多国内外客户的关注。作为国内领先的刀具制造商和可信赖的合作伙伴，欣兴工具以可靠的产品质量、专业细致的解决方案和放心的售后服务获得了国内外客户的信任。“CHTOOLS®创恒®”品牌系列产品也因而被

广泛采用于国内外重大项目的建设之中。

主营产品：

钢板钻、可换刀尖式钻头、孔钻、机夹式硬质合金刀具、整体硬质合金刀具、焊接式硬质合金刀具、金刚石钻孔工具、BTA 领域深孔钻、钻机等系列产品。

Zhejiang Xinxing Tools Co., Ltd

Zhejiang Xinxing Tool Co., Ltd. was founded in 1992 and is located on the beautiful banks of the North and South Lakes, covering an area of over 100000 square meters. It is a high-tech enterprise specializing in the research and development and manufacturing of high-performance cutting tools. CHTOOLS® Chuangheng® We are the main brand of the company and currently have over 500 employees. After thirty years of development, the company has been equipped with modern tool production lines, internationally renowned CNC machine tools, fully automatic CNC machine tools, heat treatment equipment, etc., forming a reliable and advanced production capacity. From raw material testing, cutting, rough machining, heat treatment, precision machining to finished product inspection and testing, all production processes are completed within the company. Our main products include: "Replaceable tip drill bits -" Shovel drill "and" S drill " Tap, integral hard alloy, spot facer, high-efficiency and energy-saving steel plate drill series, BTA deep hole drill, rail drill, and independently developed steel plate drill supporting

equipment magnetic base drill series. We are young and energetic, relying on technological innovation, adhering to user value, and continuously developing new products. In the future, we will strive to become a century leading tool enterprise in the industry.

The company has successively owned more than 170 core independent intellectual property patents, including 16 List of Chinese inventions patents, 1 American invention patent and 1 European invention patent. The company implements a strict quality management system, has passed the ISO9001 quality system certification, ISO14001 environmental system certification, won the national manufacturing industry single champion demonstration enterprise, Hidden champions in Zhejiang Province, drafted the "steel plate drill", "shovel drill" Chinese industry standards, attracted the attention of many customers at home and abroad. As a leading tool manufacturer and reliable partner in China, Xinxing Tools has gained the trust of domestic and foreign customers with reliable product quality, professional and meticulous solutions, and reliable and satisfactory after-sales service. CHTOOLS ® Chuangheng ®” The brand series products are therefore widely used in the construction of major projects both domestically and internationally.

Main products:

Steel plate drills, interchangeable tip drills, hole drills, machine clamp hard alloy cutting tools, integral hard alloy cutting tools, welded hard alloy cutting tools, diamond drilling tools, deep hole drills in the BTA field, drilling machines and other series of products.

The company is characterized by cold extrusion and warm and hot forging processes, mainly producing automotive steering parts, automotive generator parts, automotive shock absorption frames, automotive brake pistons, automotive chassis parts, and other special-shaped forged parts.

At present, the company is directly supporting Hitachi Automotive Systems, Songe (formerly Bosch) Automotive Systems (global), Shanghai Huizhong Automobile, Keyou Trading (Japanese enterprises such as Donghai Rubber&Plastics, Kunukawa Rubber&Plastics, Sumitomo Technology, EXEDY, etc.), India Lcas TVS, CITIC Daika, Casma Automotive Systems, Jianxin Zhaoshi Group and other enterprises in the automotive supply chain. The final supporting OEM customers include Nissan,

Honda, Toyota GM, SAIC Motor, SAIC Volkswagen, FAW Volkswagen, BMW Brilliance, GAC and other well-known automobile enterprises, involving more than 10 well-known brands such as Audi, BMW, Mercedes Benz, Volkswagen, Nissan, Infiniti, Honda, Toyota, Cruz, Mazda, Mitsubishi, Fiat and so on. The company has over 100 35T~800T press machines, 3 cold heading machines, 10 CNC high-speed metal circular saw machines, over 200 CNC machine tools, 16 strong convection spheroidizing annealing furnaces, and 1 fully automatic phosphorus saponification treatment line. The company has fully introduced and implemented ISO9001 and IATF16949 quality management systems, and has passed ISO14001 environmental management system, ISO45001 occupational health and safety management system certification, and safety production standardization certification. All products of the company have passed the quality and technical certification of customers and/or third-party testing institutions, and are comparable to similar excellent products at home and abroad in terms of safety, stability, and environmental protection.

Main products:

The cold extrusion production process is characterized by the production of hydraulic pipe fittings, automotive magnetic switch housings, automotive air conditioning refrigeration accessories, and special-shaped cold extrusion parts, bolts, nuts, hardware, and accessories

26、众恒汽车部件有限公司

中文：

众恒汽车部件有限公司成立于 2011 年,是一家专业从事设计、生产、销售汽车电子燃油泵、柴油泵、总成与过滤网等产品的高新技术企业。公司占地面积 195 亩,现有职工 1000 余人,技术人员 120 余人。公司通过科技项目开发及专利技术转化实相,形成以低噪音高效电子燃油泵系列、功能型燃油泵总成系列、高稳定性摩托车泵系列、采用新型滤清结构柴油泵总成系列为主导的高新技术产品。公司产品符合国家高新技术领域:先进制造与自动化、汽车及轨道车辆相关技术、车用发动机及其相关技术。以经济效益为中心市场需求为导向、人才培养为支撑、管理创新为动力、科技进步为依托,努力将众恒建设成为管理规范、经营稳健、具有核心竞争力的公司。通过机器换人、技术改造方式提升生产制造自动化:通过信息化管理软件开发、信息化网络建设,全面开展信息化建设,并以实现无人化智能车间为最终目标,贴合行业发展导向,大力推进适用于汽车/摩托车使用的高性能环保型产品开发。公司不断发展壮大,拥有 4 项发明专利、11 项外观专利,69 项实用新型专利。公司于 2016 年被评为嘉兴经开区“机器换人”示范企业,2017 年度荣获经开区主任质量奖,2018 年度被认定为省级高新技术研发中心、省级专利示范企业、嘉兴市市长质量奖,2019 年主持制定浙江制造团队标准-T/ZZB 0928-2019,并于同年获批省级企业研究院,2020 年度被认定为省级技术中心、浙江省出口名牌、浙江省两化融合示范企业等,除此之外,公司已通过 ISO14001 环境管理体系认证、OHSAS18001 职业健康安全管理体系认证、ISO/TS16949 质量管理体系的认证、企业知识产权管理规范体系、两化融合贯标体系认证。

主营产品：

电动燃油泵、电动燃油泵总成、喷油嘴、膨胀壶以及 EMS 系统配件

Zhongheng Automotive Parts Co., Ltd

Zhongheng Automotive Parts Co., Ltd. was established in 2011 and is a high-tech enterprise specializing in the design, production, and sales of automotive electronic fuel pumps, diesel pumps, assemblies, and filter screens. The company covers an area of 195 acres and currently has over 1000 employees and over 120 technical personnel. Through the development of technological projects and the transformation of patented technologies, the company has formed high-tech products dominated by low noise and efficient electronic fuel pump series, functional fuel pump assembly series, high stability motorcycle pump series, and diesel pump assembly series with new filtration structures. The company's products are in line with the national high-tech fields: advanced manufacturing and automation, automotive and rail vehicle related technologies, automotive engines and related technologies. Focusing on economic benefits, guided by market demand, supported by talent cultivation, driven by management innovation, and supported by technological progress, we strive to build Zhongheng into a company with standardized management, stable operation, and core competitiveness. Improving production and manufacturing automation through machine replacement and technological transformation: Through the development of information management software and information network construction, we

comprehensively carry out information construction, with the ultimate goal of achieving unmanned intelligent workshops, in line with industry development orientation, and vigorously promote the development of high-performance and environmentally friendly products suitable for use in automobiles/motorcycles.

The company continues to develop and grow, with 4 invention patents, 11 appearance patents, and 69 utility model patents. In 2016, the company was rated as a "machine replacement" demonstration enterprise in Jiaxing Economic Development Zone. In 2017, it won the Quality Award of the Director of the Economic Development Zone. In 2018, it was recognized as a provincial high-tech research and development center, a provincial patent demonstration enterprise, and the Quality Award of the Mayor of Jiaxing City. In 2019, it presided over the formulation of the Zhejiang manufacturing team standard - T/ZZB 0928-2019. In the same year, it was approved as a provincial enterprise research institute. In 2020, it was recognized as a provincial technology center, a Zhejiang export brand. In addition to being a demonstration enterprise of the integration of industrialization and industrialization in Zhejiang Province, the company has passed ISO14001 environmental management system certification, OHSAS18001 occupational health and safety management system certification, ISO/TS16949 quality management system certification, enterprise intellectual property management standard system certification, and integration of industrialization and industrialization system certification.

Main products:

Electric fuel pump, electric fuel pump assembly, fuel nozzle, expansion kettle, and EMS system accessories

Zhejiang Bairui Auto Parts Co., Ltd. was founded in 1996 and is currently located in Pinghu Economic Development Zone, Zhejiang Province. The company currently covers an area of over 26500 square meters, with a construction area of over 30000 square meters. We currently have more than 180 employees, including more than 30 senior technical and management personnel. It is currently an excellent and highly competitive enterprise in the manufacturing industry of hydraulic separation bearings in China. The company's main products include hydraulic release bearings, clutch master cylinders, and clutch slave cylinders. In the field of international trade, we have established cooperative relationships with customers such as Valeo after-sales, Sachs after-sales, and SKF after-sales. Our products have been exported to Europe, North America, South America, Africa, and other regions, and are highly favored by customers. In the domestic after-sales field, we mainly provide services for clutch manufacturers and the aftermarket. In the domestic supporting field, we have already cooperated with multiple host companies for OEM matching and services. In order to explore and adapt to the development of the global market, the company has comprehensively strengthened production technology transformation, invested tens of millions of yuan to introduce advanced precision

processing equipment and assembly lines at home and abroad, and established an experimental center, which has greatly improved and ensured the quality of the products, and further improved the stability of the products.

The company was the first in the same industry in China to pass ISO9001 quality system certification in 2006, TS16949 quality system certification in 2009, and IATF16949 quality system certification in 2018. The company was recognized as a national high-tech enterprise in 2017, and its laboratory was recognized as a provincial-level high-tech enterprise research and development center in 2019. In addition, the introduction of ERP systems has led to a trend towards standardization, systematization, and modernization in company management.

Zhejiang Sanwei Datong Precision Forging Co., Ltd

Zhejiang Sanwei Datong Precision Forging Co., Ltd. has a registered capital of 50 million yuan. The company's main business is the design, research and development of precision forging parts for automobiles, as well as the production and sales of CNC machining for finished automobile parts. It is a national high-tech enterprise among the top 10 associations in the cold extrusion, cold forging, warm forging, and hot forging industries.

The company is located in the middle transportation hub of Shanghai, Hangzhou, Suzhou, and Ningbo, with a complete industrial chain and convenient industry technology exchange and cooperation. At present, the company has a building area of more than 62800 square meters and 280 employees, including more than 50 middle and senior technicians and R&D personnel. It has hired Xu Xianglong, the chief expert of China Forging Association, as the general technical consultant of the company, and has established a close industry university research cooperation relationship with Beijing General Research Institute of Mechanical Science and Nanchang Hangkong University. The provincial R&D center established by the company has independent intellectual property rights, and has mastered advanced core technology of forging die design, development and manufacturing. On the

basis of IATF16949:2016 quality assurance system certification, the company uses cold warm hot precision forging forming technology to manufacture automobile transmission spline sleeve, engine output shaft, gearbox spline shaft, Common rail injector body, brake system piston and other parts professionally.

Main products:

Forged and cold forged blanks

Jiaxing Jinling Hardware Technology Co., Ltd. was established in December 2005 and is located in Haiyan, Zhejiang, a fastener manufacturing base in China. For 17 years, the company has been committed to producing high-strength nuts. The company is close to the Hangzhou Bay Bridge in the north and 100 kilometers away from Hangzhou, Shanghai, Suzhou, Ningbo and other places respectively. The geographical position is superior, the environment is beautiful and the transportation is convenient. The company specializes in producing various automotive nuts with a monthly production capacity of 1200 tons. Our main products are hex nuts, nylon nuts, Flange nut, square nuts and long nuts. The company's products cover ISO standards, German DIN standards, American ANSI standards, British BS standards, Italian UNI standards, Japanese JIS standards, and more. The products are exported to various regions such as Europe, Australia, Africa, Southeast Asia, and the Americas, and the quality and reputation of the products have received unanimous praise from domestic and foreign customers. In order to

further upgrade the industry and advance deeper into the industry, the company obtained the ISO9001:2015 quality system standard in 2019. In 2015, it introduced high-end atmosphere protected spheroidizing well annealing furnace, atmosphere protected continuous carburizing and tempering bright mesh belt line, and added 100 tons of microcomputer controlled hydraulic testing machine, three eye inverted metallographic microscope, M4000 desktop spectrometer, digital Rockwell hardness tester Energy dispersive X-ray fluorescence analysis thickness gauge and other testing equipment. The company provides professional technical services such as heating treatment for small and medium-sized enterprises with sincerity while upgrading its own products. The product quality and service are highly recognized by customers.

Hengfeng Tools Co., Ltd

Hengfeng Tools Co., Ltd. was founded in 1990 and is a national high-tech enterprise specializing in the development of precision tool products and providing process technology services. It is the first independent listed company in the industry, with over 700 employees, including 170 research and development experimental teams. In 2020, it achieved a sales revenue of 380 million yuan. The company is headquartered in Haiyan County, Zhejiang Province. In May 2016, Hengfeng US Company was established to accelerate the development of the North American market. In early 2017, it invested nearly 200 million yuan to fully acquire Wenling Shangyou Talent to further expand its product chain, forming four production bases including Haiyan, Wenling, and the United States. The company's products are divided into two categories and seven series, namely broaching tools, cold extrusion forming tools, spline measuring tools, gear tools, efficient drilling and milling tools, efficient steel plate drills, and high-precision tap. These products are mainly used in the manufacturing fields of automotive parts, aviation parts, robot reducer manufacturing, and other precision machinery. Among them, broaching tools and spline measuring tools have had the first market share in China for more

than 10 consecutive years Leading globally. The company's products have been recognized as provincial famous brand products for many consecutive years, and the company's trademark has been administratively recognized as a well-known trademark in China. For more than 30 years, the company has always adhered to the original intention of "being a good tool for the manufacturing industry" and the concept of "innovation, leadership, efficiency, and win-win". It is committed to creating "good teeth" for the high-end equipment manufacturing industry, filling gaps, and continuously breaking through the key "bottleneck" technology of precision manufacturing, leading the high-quality development of the industry. The company is one of the strongest comprehensive enterprises in the domestic complex cutting tool and precision measuring tool industry. It is also a vice chairman unit of the Complex Cutting Tool Branch of the National Tool Standardization Committee, and a leader unit of the Spline Measuring Tool Working Group of the National Measuring Tool Standardization Technical Committee. It has successively led the development of 11 national or industry standards such as "cylindrical straight tooth involute spline gauges". The company has 15 core technologies and 20 invention patents. It is a "national technological innovation demonstration" enterprise, a "specialized, special and new little giant" enterprise, a "Made in Zhejiang" brand enterprise, and a Hidden champions. Our Hengfeng Tools has an annual update rate of 30% to 40% in product design. We independently develop core CNC equipment for precision cutting tools, establish coating centers, trial cutting centers, and CNAS testing laboratories, solve key

shortcomings, and create an intelligent, flexible, green, and digital factory. With an innovative attitude, we continuously improve product quality," said Chen Errong, Chairman of Hengfeng Tools Co., Ltd, Innovation is eternal vitality. Only by adhering to independent innovation can our manufacturing industry truly become stronger. Only by continuously innovating products and improving product quality can we establish a firm foothold in the market, and have deep opportunities and development prospects

Main products:

Broaching tools, gear tools, tooth rolling tools, drilling and milling tools, spline measuring tools, thread measuring tools, high-precision taps, steel plate drills, indexable gun drills, BTA deep hole drills and other series products.

Jiaxing Yongli Precision Steel Pipe Co., Ltd

Jiaxing Yongli Precision Steel Pipe Co., Ltd. was established in 2006 in Jiashan Economic Development Zone (national level), Zhejiang Province. It is a

wholly-owned subsidiary of Zhejiang Yongli Precision Manufacturing Co., Ltd. It is a high-tech enterprise with a registered capital of 150 million RMB. The company specializes in the research and development, production, and sales of precision steel pipes and related components, which are the core components of automobiles. It has a complete production chain including plate coil longitudinal shear processing, high-frequency welding of welded pipes, heat treatment, surface treatment, cold drawing processing, and short pipe processing. The products are mainly used for automotive shock absorption systems, steering systems, transmission systems, engine systems, stabilizer bars, etc. It is a secondary supplier for the vast majority of domestic automobile manufacturers and a first-class supporting supplier for internationally renowned automobile parts enterprises. Some products are exported overseas, setting a benchmark in the automotive pipe industry and has always led the development of the domestic automotive pipe industry. In recent years, it has further expanded the market of Alternative fuel vehicle, supporting many domestic new energy manufacturers such as BYD, Tesla, XPeng, Nio Inc., etc. At present, the supply and quality of welding and cold drawn automotive pipes are among the top two in the industry in China. The company passed the ISO/TS16949 quality system in July 2009, passed the ISO14001 world standard certification in 2020, and obtained the evaluation certificate for the integrated management system of industrialization and industrialization. In 2021, it obtained the provincial-level research and development center for high-tech enterprises. Our leading products include precision steel pipes for automobiles,

including shock absorbers, steering systems, transmission systems, and driving systems, as well as air conditioning pipes. We have formed an annual production capacity of 36000 tons of precision welded pipes, 53 million precision steel pipe parts, and 99.5% of our products are used in automotive components. Jiaxing Yongli has established a long-term supply relationship with Baosteel and signed relevant technical agreements, enabling the company's raw material supply to fully meet customer requirements. At present, the main customers include Tenak, Hitachi Anstamo System, Wandu System, BYD, Kaierbi, Jiangsuojun, Thyssen System, Netherford, Xiefu Guangyang, etc. The supporting vehicle manufacturers include BMW, Mercedes Benz, Tesla, BYD, Honda, Volkswagen, Ford, General Motors, Toyota, Nissan, Geely, Nio Inc., XPeng, etc. Since its establishment in 2006, the company's production and sales have increased at an average annual rate of 10%-30%, making it a leading manufacturer of precision welded pipes and welded cold drawn pipes in China.

Main products:

Precision welded steel pipes and cold drawn pipes for automobiles, including shock absorbers, steering systems, transmission systems, and driving systems, as well as pipelines for air conditioning

Jiaxing Hexin Jingchong Technology Co., Ltd. was established in 2002, with full investment from China Precision Stamping International Co., Ltd. registered in Samoa. It covers an area of 58350 square meters and has a construction area of 46746 square meters. It has nearly 20 years of experience in automotive parts production. At present, there are over 800 employees and the company has advanced production equipment in the industry, with good production capacity. The company's products include hard disk drive components and automotive parts, including automotive engines, door locks, seats, transmissions, hydraulic pumps, and other electronic hardware parts of different specifications. The products are mainly used in hard disk drives and automobiles, and will develop in many fields in the future, such as Textile manufacturing, agriculture, and engineering machinery. The main customers are more than 120 first-order suppliers of automobiles, such as Volkswagen, Magna International, Shanghai Montassa, Honda Lock, Fu'ao, BorgWarner, Kaiyide, Danfoss, Yanfeng Johnson, Guangzhou Jinxian, etc. The products are applied to famous brands such as BMW, Volkswagen, Honda, Toyota, Tesla, Ford, Great Wall, etc. Our company produces VCM POLE with a global market share of 20%. The company's production management strictly follows the ISO-9001:2015 standard, IATF-16949:2016 standard, OHSAS18001:2007 standard,

and ISO14001:2015 standard, and the production of products strictly follows the corresponding standards. The company has always been committed to pursuing more effective manufacturing processes and high-quality products with more competitive prices. Advanced production equipment, scientific management systems, and strict process flow ensure that the company's product performance and quality are in a leading position among peers. There are more than 30000 domestic stamping plants, less than 100 precision stamping plants, and less than 10 precision stamping machines with more than 10. Our company currently has 15 precision stamping machines. Since its establishment, the company has been focusing on the field of precision punching for more than 20 years and has now developed into one of the top three precision punching enterprises in China. There is only one precision punching factory in China that has complete processes such as mold design, precision punching, grinding, heat treatment, electroplating, and plastic packaging. In the VCM POLE industry, our company is the only enterprise that has invested in fully automated CCD detection. In 2021, we signed an alliance agreement with senior Spanish precision stamping companies to jointly explore the global high-end manufacturing market, which will be another new chapter in our new history!

Zhejiang Weile New Energy Compressor Co., Ltd

Shanghai Weile Automotive Air Conditioner Co., Ltd. was established in November 1999, mainly engaged in the research and development and manufacturing of automotive air conditioning systems. In 2011, the company began to focus on developing and manufacturing new energy vehicle air conditioning systems with electric compressors as the core, based on traditional automotive air conditioning systems. In order to seek faster and better development, the company formed a strong alliance with the holding subsidiary of Changhong Huayi (stock code: 000404) - Casibella Compressor Co., Ltd. in 2016. Relying on the resource integration of the parent company and years of dedicated cultivation, we now have a highly educated, innovative, and experienced technical research and development team with the ability to develop electric air conditioning compressors for new energy vehicles. The electric compressor product series is complete, covering the entire range of new energy passenger vehicles and some new energy

commercial vehicle air conditioning needs. The company has advanced testing and testing facilities, a high degree of production automation, and a complete pre-sales and after-sales service system. Its products and services have been widely praised by many well-known domestic automobile manufacturers.

Digital empowerment creates the future. In October 2021, the smart compressor industry project in Jiaxing, Zhejiang Province was officially started. The total investment of the project is planned to be 1.3 billion yuan. The new factory has a digital automated machining line, a scientific and technological intelligent assembly line, and a leading test center at home and abroad, to achieve an annual output of 1 million new energy vehicle air-conditioning compressors.

Main products:

Automotive air conditioning compressor clutch and pulley components products

It is a municipal research and development center, a provincial-level scientific research enterprise, and a national high-tech enterprise. In order to welcome the increasingly progressive digital era, the company has entered the digital process since 2000. High speed transfer printing machines, screen electronic color separators, laser typesetters, Apple MAC G3, G4, G5 series professional computers, EPSON large color digital proofing machines, laser leather scanners, laser depth precision meters, laser leather engraving, GF/DMG laser engraving machines and other sophisticated equipment have been introduced with huge investment. When domestic peers are still in the original manual state, the company has entered the digital era. By utilizing these high-tech equipment and technological means, the company's processing accuracy and production efficiency have been comprehensively improved. It only takes two days to complete the collection, stitching, and sampling of raw texture data. With the advancement of digital technology, the current production level of the company can reach three major types of textures: three-dimensional five levels, fine, and ordinary. The surface of the mold can be processed into three effects: bright, semi matte, and full matte. Through efforts, the company has successfully developed three-dimensional seamless Artificial leather embossing roller, which has been widely used in

automobile, laptop and other industries. The company provides multiple vehicle leather grain processing technology services for FAW Audi, becoming a loyal partner of customers and widely recognized by them. In addition, SAIC Volkswagen, FAW Volkswagen, Dongfeng Peugeot-Citroën, SAIC Motor, Geely Auto Automobile, BAIC Motor, etc. are also core customers of the company. In terms of new energy, Nio Inc., Li Auto, Qiantu Automobile, Electric Coffee Automobile, Hozon Auto, Leapmotor, Aways, Bertan Automobile, etc. Jialong products are widely used in various brands and models, and have gained customer recognition and market recognition. The company has passed the ISO9001-2000 quality management system certification, is a member unit of the Surface Branch of China Die&Mould Association, has independent intellectual property rights of the original texture processing technology, and has won the List of Chinese inventions patent and Zhejiang Excellent Patent Award.
